Others: Compliance (9%) ₹35K - ₹40K
Bylaws | Grievance | Audit | Legal

Tech & Security (22%) ₹70K - ₹80K

PWA app | Security audits | Testing

Co-op Onboarding (36%) ₹1.2L - ₹1.4L

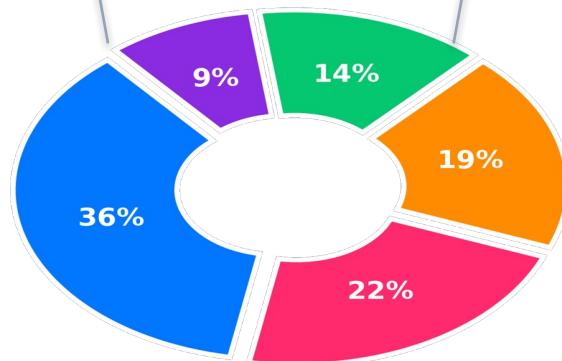

Field onboarding | Skill Testing | KYC

Verification & SMS (14%) ₹45K - ₹55K

UIDAI QR | 2Factor SMS | SSL APIs

Cloud & DB (19%) ₹60K - ₹75K

Supabase | Render | Redis | CDN

Feasibility

Full-Stack PWA + FastAPI built on Next.js 14 & Python. Bypasses **30% App Store cuts**; lightweight and offline-cached for low-end ₹6,000 devices.

Zero-cost public infra via **OpenStreetMap / OSRM** & UIDAI Offline e-KYC/Secure QR, eliminating commercial Google Maps and KYC API billing.

In-process statistical AI engine delivers 30-day demand forecasts locally with **zero external GPU or LLM token costs**.

Provider Abstraction Architecture allows **seamless plug-and-play migration** between zero-cost demo mocks and live production gateways.

Viability

India's home services market to hit \$35B by 2030; over **90% + unorganized technicians** ready for digital formalization.

25%–35% higher take-home pay via 0%–5% commission guarantees organic viral retention with **₹0 Customer Acquisition Cost (CAC)**.

Direct National Policy Alignment with **Code on Social Security 2020** and Ministry of Cooperation's 'Sahakar Se Samridhi' framework.

Self-sustaining Social Security Vaults: automated **1% micro-deductions** fund worker health, pension, and insurance with zero fiscal debt.

Challenges and Mitigation

Semi-literacy & digital divide among gig workers

Trilingual Voice AI (Hindi, Marathi, English) + 1-click icon dispatch and SMS fallback cuts onboarding friction by **60%**.

Doorstep trust & customer safety concerns

100% DigiLocker / Aadhaar KYC + mandatory doorstep **4-digit arrival OTP handshake** ensures zero unauthorized visits.

Platform sustainability on low 0%–5% cut

Co-op tool store wholesale margins (20–30% trade discount) and society AMC contracts **cross-subsidize digital platform overhead**.

Weak rural / Tier-3 internet connectivity

Offline-first PWA caching + lightweight Haversine radius search requires **<50KB payload**, delivering 2x faster performance on 2G/3G.
